Report of the Investigating Committee.

We conclude to-day this terrible record of the swindling, corruption, and wanton negligence of the Barstow dynasty in this State. Read it, People of Wisconsin! and reflect upon it.

Orders left *to-day* for copies of the extra containing the Report and evidence, will secure them.

MADISON, Wednesday, Sept. 18.

The Apportionment Bill, the Report of the Investigating Committee and the Land Grant, are three prominent topics before the Legislature, and beyond these little will be talked of, or acted upon. The Senate was busy all this morning with the Apportionment Bill and will probably get through with it to-morrow. In the House, the first business taken up was a resolution to print 1,000 copies in Norwegian of the Investigating Committee's report and evidence. As introduced, the resolution proposed that the printing should be done at the *Emigranten* (Republican) office, and it was warmly opposed by some of the Sham Democracy, on the ground that it was a violation of the Constitution, as well as of the contract with the State Printer.—An amendment, however, was moved and carried (40 to 37) substituting the "Norske Amerikaner," (democratic) for the *Emigranten*; whereupon the constitutional scruples of the democracy suddenly vanished and the resolution, as amended, was put through under whip and spur.

A motion was then made to reconsider the vote of yesterday, allowing Messrs. Smith and Grey, ex-State officers, to appear before the Investigating Committee and answer their report.—This reconsideration was moved in order to allow Judge POTTER, of Walworth county, who drew the report and who was absent yesterday, to make an explanation in regard to the matter. The Judge improved the opportunity and addressed the House at some length and with much ability, in defence of the action of the Committee and of the part which he himself had taken in the investigation. The laboring oar had been assigned to him by the unanimous vote of the Committee, and he had endeavored to do his duty faithfully and impartially. He disclaimed all design or desire to make political capital out of the report, and expressed his surprise that any member should impute such motives to him. His only wish had been to do justice to the State and satisfy the expectation of the People, and it would have given him far more pleasure to have found and reported everything right about the Treasury and the School Fund, than to have been forced to report so damning a record of official neglect and malfeasance. He exposed some of the gross misstatements of the *Argus* as to the character and contents of the Report, and successfully vindicated the Committee from the partisan aspersions which have been so freely cast upon them. Judge POTTER was followed by Mr. MILLS, of Grant, in a scathing speech, and pending the call for the previous quarter, the Assembly adjourned till to-morrow morning.

The Land Grant Committee meet this afternoon. They are nearly ready to report. It is understood that their bill provides for two new companies, one to take charge of the Eastern, the other of the Western line, and that great pains will be taken to select for commissioners, honest, capable and trust-worthy men. Indeed none others can pass the ordeal of the two Houses. As to the Western line, the main source of difficulty or difference, is the starting *point*. *That* settled, there seems to be no further obstacle in the way. I incline more and more to the opinion that the Legislature will require the road to be built from Columbus, as well as from Madison to Portage City, and for the very good reason that this would best promote the general interests of the State and turn to the best advantage the munificent grant of Congress.

We had a fine shower of rain last night, or early this morning, with heavy thunder and sharp lightning. The city is very full of people and much interest is felt in the issue of the Legislative deliberations.

Politics are rife at Madison, as elsewhere through the State. I think the Buchanan men everywhere substantially give up this State. It is for Fremont and Freedom. R. K.

Well Deserved Thanks.

CHICAGO, Tuesday, Sept. 16.

EDITORS OF SENTINEL:—The "Kansas Relief Train" from Wisconsin left Milwaukee last evening on the Clement's Line of Steamers from this place and arrived about seven o'clock this morning. The company numbered 43 men, all of whom were forwarded free by the CLEMENT'S Line of Steamers on the *Arctic*. This morning a meeting was held in the cabin of the boat, composed of the Relief Train, at which time Prof. E. DANIELS was elected to occupy the position of Leader, and E. C. REDFIELD as permanent Secretary.

The following resolutions were then introduced and unanimously adopted

Resolved, By the Kansas Relief Train, that we tender our most cordial thanks to the proprietors of CLEMENT'S Line of Steamers for their liberality in forwarding the members of this Train gratuitously, and that we shall remember them as philanthropists.

Resolved, That the conduct of the gentlemanly officers of the steamer Arctic towards us upon this trip entitles them to our highest esteem.

EDWARD DANIELS, Leader.
E. C. REDFIELD, Sec'y.

Brookfield Political Discussion.

A discussion of the principles of Democracy, and of the merits of the candidates of the Republican and Democratic parties, will be held at Putney's School House in Brookfield Centre, on Saturday the 20th inst., at 5½ o'clock P. M. The speakers engaged to be present are, Mr. ROBERT CRAWFORD, of Waukesha, and Mr. JOSEPH KAYE, of Delafield, the former of whom will advocate the election of Buchanan, and the latter that of Fremont. All are requested to attend.

SUIT COMMENCED.—The Attorney General informs the Legislature that he has commenced a suit in the Dane Co. Circuit, against Mr. Janssen, the Late State Treasurer, for the amount of his defalcation. Could not there be some means devised by which those who got the money could be reached? We do not believe that Janssen has taken it.

DECLINED.—Mr. GEO. H. PAUL has withdrawn his name from the Buchanan Electoral Ticket in this State, as he holds the office of Postmaster at Kenosha. It is just as well; for he would not have been able to cast a vote for Buchanan if he had run.

DEMOCRATIC MEETING LAST NIGHT.—Mr. DAWSON, of Pennsylvania, addressed a meeting of the "democracy" in Market Square last night, drawn together by music and cannon. Mr. Dawson, feeling that the "game is up" and his state lost to Buchanan with the rest, doubtless considers it his duty to comfort his brethren out this way.

SHANGHAI LIBERALITY—GREAT YIELD.—It is said by the Black Republican papers that there were 30,000 people at Beloit. A subscription was taken up and *six hundred dollars!!!!!!* were subscribed for suffering Kansas—two cents a piece!!—*Mil. News.*

We find the above lie copied into the Buffalo *Commercial Advertiser*, Mr. Fillmore's chief Know Nothing organ. The Allies work well together. The ladies of Beloit furnished food to such as wished for it, at a low price, and having cleared about $600, gave it for Free Kansas.

Second and Sixth Ward Fremont Club.

At a meeting of the Freemen of the Second and Sixth Wards, held at RIMELE'S Hall (*Johannisberg*), on Tuesday evening, 16th inst., to perfect the organization of the FREMONT Club, G. P. GREEN was called to the Chair, and R. P. HOUGHTON appointed Secretary.

The Committee appointed at last meeting, to recommend suitable officers for the Club, reported that they had been unable to get together, and asked to be discharged, which was granted.

On motion, the Chairman appointed a new Committee for the same purpose, consisting of Messrs. Isaac Neustadtl, R. W. Pierce and L. N. Dewey, who reported the following officers for the Club:

President—J. A. PHELPS.
Vice Presidents—JOSEPH WALTERS, ISAAC NEUSTADTL.
Treasurer—L. N. DEWEY.
Secretary—R. P. HOUGHTON.
Executive Committee—G. P. GREEN, DR. BRENDICKE, A. HILL, F. STOLZE, F. SCHUENL.

Report adopted—after which the meeting was addressed by the Chairman elect on taking his seat, followed by DR. MUNK, MR. NEUSTADTL and DR. BRENDICKE in German, and JOSEPH WALTERS and G. P. GREEN in English.

A special Committee of three was appointed to make preparations for a great meeting next Monday evening.

On motion—

Resolved, That all persons, without regard to birthplace, religion, or former political associations, be invited to attend the meeting next Monday evening and to unite with us in helping on the good cause.

On motion, meeting adjourned till next Monday evening at 7½ o'clock,

J. A. PHELPS, Ch'n.
R. P. HOUGHTON, Sec'y.

LATEST FROM KANSAS.

Mrs. Robinson, the wife of the Free State Governor Robinson, of Kansas, who has so long been held a prisoner by the ruffians and their abettors, arrived at Chicago on Tuesday, and took rooms at the Tremont House.

The following is a summary of the latest intelligence from the territory.

Judge Lecompte refused to proceed with the trial of the prisoners indicted for treason, alleging that the country was in a state of insurrection, and accordingly postponed their trial till April. In the meantime they were admitted to bail in $5000 each, except Robinson, who was required to give $500 additional for "usurping the office of Governor."

The prisoners, on giving the required bail, proceeded to Lawrence, where they were received amid great rejoicing.

Gov. Geary was at Leavenworth, and made many fair promises to drive the ruffians from the territory. He released the prisoners in the hands of the Missourians at Leavenworth, and was to proceed immediately into the interior.

Comparative quiet reigned in the territory, the Missourians having incontinently fled, for Westport, to the number of two or three thousand.

Gov. Geary announced his purpose to visit the settlers in person, and learn their grievances, and avowed his intention to preserve order and maintain the laws of the Territory. He has issued a proclamation, commanding armed bands to disperse.

Some thirty or forty families, all free state except three families, had sought refuge at the Fort. On Monday last, Gen. Smith ordered that all persons not employed by the United States should leave the Fort by the following Wednesday. The under officers were indignant at the order, and encouraged the holding of an indignation meeting. Deprecatory resolutions were passed, but Smith refused to hear them.—Their only hope, when our informant left, was in the interposition of Gov. Geary. They could not return to their homes safe, at the risk of their lives. They determined to remain till driven from the Fort at the point of the bayonet.

On the 31st ult., a company of 500 men, under Atchison, were driven back into Missouri by a party of Lane's men, who met them near Blanton's bridge. The pro-slavery men fled on the first charge, in all directions. This statement was made by the pro-slavery troops in the presence of our informant while a prisoner in their camp.

Keep it Before the People!

That Senator WELLER declared the Kansas laws "as atrocious and infamous as any laws which ever found their way upon the statute book of any free people in any age of the world."

That Senator BELL of Tennessee said: "Had I been conscientiously opposed to Slavery, and settled in Kansas with a view to better my condition, and had witnessed the outrages said to have been committed by the people of Missouri on the rights of the Free State inhabitants, and had I felt my neck galled by the yoke of a usurped government, and had lost all my hopes of relief, from any quarter, if resistance to such oppression be treason, SO HELP ME GOD I WOULD HAVE BEEN A TRAITOR."

And that Senator BAYARD of Delaware, said: "while he opposed the proviso, he felt free to admit that some of the laws of Kansas shocked the moral sense of the community as being subversive of natural rights; and as such he was ready, by a declaration of rights, to declare them null."—*Chicago Tribune.*

Investigation of State Affairs.

REPORT,

IN ASSEMBLY SEPTEMBER 12, 1856.

The Joint Committee of the Senate and Assembly, appointed to examine the books in the offices of the State Treasurer, the Secretary of State, and School and University Land Commissioners, and to carry such examination back to the commencement of our State Government, respectfully

REPORT:

(CONCLUDED.)

It will be seen by the testimony of Mr. Powers, Gen. Wm. R. Smith and Mr. Keuhn, that allusions are made to a certain letter written by some one in the city of New York to Mr. Besley in relation to School Land Certificates. This letter was found in a desk in the School Land Office, and was placed in the possession of Mr. Powers, for the use of Committee, by Gen. Smith, as will be seen by his testimony. But Mr. Powers, unfortunately, permitted Mr. Besley to take the letter after it was deposited with him. Mr. Keuhn thought that Mr. Janssen took a copy of it, but Mr. Janssen says it was another letter which he copied.

The Committee could not, therefore, avail themselves of the information which this letter would have afforded them in relation to the illegal issue of certificates, except as they could gather its contents from those who had read it. It seems from the testimony of Gen. Wm. R. Smith that the letter was addressed to Mr. Besley from some one in New York upon the subject of School Land Certificates. That the general purport of the letter was that there was some organized club or company for the purpose of entering school lands or purchasing certificates, in order to sell the same again in New York, or elsewhere, and that the writer was an operator for the company or club, and that some person under a disguised name in the letter was in New York, and that another person under a disguised name was either in Madison, or was expected to come from Madison to New York. An indication was also given that certificates should be sent on, as it was a good time to operate.

If the testimony of Mr. Janssen that the money due on a great deal of land sold was never paid—which is also found to be the fact by an investigation of the books of the Treasurer, and that the other Commissioners and the Clerks in the School Land Office were interested in the purchasing of these lands, and the testimony of Mr. Frary that Chas. J. Kane & Co., of New York, were agents for the sale of school and university land certificates, and that certificates were sent to them for sale, and also the testimony of Mr. Seaver that many certificates, after being signed by the Commissioner, and filled out by the clerks, were put into market and "sold like any other property," and some of them sent to New York, be considered in connection with this letter, and with the fact that every facility was offered by the Commissioners to clerks and others to enter land, fill out the certificates and take them from the office without payment, and that Besley was frequently absent in New York, it does not leave room to doubt that an extensive business has been carried on, under the eyes of the Commissioners, between the school land office and some well organized association outside, in disposing of school land certificates, resulting in the loss to the school fund of this State of a large amount of money.

It is but justice to Mr. Janssen to say that according to the evidence of Mr. Habich, who was a clerk in the Treasurer's office, during Mr. Janssen's incumbency, he was absent from Madison for a long time, called home and detained there by severe and prolonged sickness in his family, leaving the business of the treasury in charge of Mr. Daniel Seaver, the assistant in the office.—And it appears, moreover, that when Mr. Janssen was at Madison, he was seldom or never consulted by the other two commissioners, Messrs. Smith and Gray, in relation to the affairs of the school land office; but the latter consulted together, and took the sole management of matters upon themselves. It is true that this does not relieve Mr. Janssen of his legal responsibility, or excuse him for not asserting the prerogatives of his office, the proper and legitimate exercise of which might have proved a barrier to these enormous frauds, or for the want of that care, prudence and discretion which the responsibility of his office imposed upon him. The fact alone, that he permitted Mr. Seaver to take charge of the business of the treasury department, without giving any bond for the faithful discharge of the duties of his office, is a proof of gross and inexcusable negligence. This however, affords no excuse to the other commissioners for taking advantage of Mr. Janssen's misplaced confidence in Mr. Seaver.

Mr. Janssen says that he was absent when the Attorney General and Secretary of State made the arrangement to have Mr. Besley draw money from the treasury for the payment of the clerks, and that the arrangement was made with Mr. Seaver. The commissioners had no more right to make such an arrangement than any other individual would have had. No appropriations had been made by the Legislature for the pay of the clerks, and if the commissioners could draw without authority, eight thousand dollars from the treasury for one purpose, they could in the same way draw one hundred thousand for another.—For this amount Mr. Janssen is liable, and it will be for the Legislature to say what course shall be pursued in relation to it. This amount is eight thousand six hundred and twenty-eight and 70-100 dollars.

Mr. Frary in his examination, admitted that while a clerk in the office, he entered a large quantity of school land with the permission of the Commissioners, and says Messrs. Besley and Byrne did the same. He says, moreover, that the Commissioners knew that he was doing so from the fact that by a mutual understanding between themselves and the clerks, they received no fees on land entered by the clerks, and that they sometimes complained that they were losing too much fees. This only confirms the testimony of Mr. Byrne, in relation to the complicity of the Commissioners in these transactions. Mr. Frary also states that some of the Howell certificates were left with him to be sold on commission, and some were sent to New York, but was unwilling to state the names of parties for whose benefit they were to be sold. It appears from the record of sales of forfeited lands that some of the clerks in the office were in the habit of entering these lands immediately upon the occurrence of the forfeiture. Mr. Byrne admits that he was in the practice of doing this. The advantage thus given to the clerks could only work to the serious injury of every person who might desire these lands for other purposes than speculation.

In many of these cases, no fees were charged for advertising, nor was the whole of the back interest included as the law requires, leaving the amount a charge upon the school fund. In some instances of resale of forfeited lands they were bought by the original purchaser, at even less than the amount for which they first sold, thus making it an object for purchasers to forfeit their land. As an instance, to illustrate this we will cite the case of George Reed, in Manitowoc county. In 1854 he forfeited fifty-two lots and repurchased them. Some of those lots were appraised at sixty dollars, and sold to him at the appraisal. He re-purchased them at fifty dollars per lot. The law provides that when land shall be forfeited, it shall not be resold for less than the amount of the original purchase money, the interest due, and the fees and expense of the resale. This law has been repeatedly violated.—Section 9, chapter 24, R. S., provides that no person shall purchase more than one hundred and sixty acres of school and university lands at any public sale of such land. No regard has been paid to this law. It has been constantly evaded by the use of other names by the party making the purchase, by a system of forfeiting bids made in the names of fictitious persons, and subsequently entering the lands by application, and also by its open violation. On the sales sheets used at the sale of lands in Outagamie county, the name of A. McNaughton appears opposite the description of one hundred and ninety-two lots, making over seven thousand six hundred acres.

The act of March 6th, 1855, provided that no lands should be entered by any person, unless the applicant should file an affidavit, stating among other things that the said applicant does not own or hold in his own name, or in the name of any other person for him, any quantity of school or university lands, which together with those he applies to purchase will not exceed three hundred and twenty acres. Immediately previous to the passage of this law, and while it was pending, large entries were made in the name of Howell by the clerks in the office, and also by others; evidently done to evade the land, and prevent the object the Legislature had in view from being carried out. This object unquestionably was to keep these lands from going into the hands of the speculators, and to afford the actual settlers every facility to obtain them. More land was probably entered between the first and 6th of March, 1855, than at any time before within the same period of time. And the committee regret to see among the names of persons who made these entries those of some members of the Legislature in which the bill was then pending; thus evincing a disposition to establish a just and equitable measure of public policy for the government of others, but by which they themselves were unwilling to be governed.

Upon an examination of the books and papers in relation to the appraisal of school and university lands, the Committee find that many of the appraisals have been made contrary to law.—Sec. 2, on page 763, R. S., requires that the appraisers shall, before entering on the duties of their office, be sworn, and that the oath shall be annexed to the appraisal, and returned to the Secretary of State; and sec. 7 of the same act requires them to make a joint report in detail to the Secretary of State of all they have done. Many of the appraisals returned to the office have neither oath, certificate, report, or even the name of the appraisers attached to them, or detached from them. In many instances, there is no evidence whatever that the books or papers which purport to be an appraisal, were made or intended to be made for that purpose. The whole amount of money expended for the appraisal and selection of School and University Lands in the State (*See tables marked L. and M.*) amounts to the sum of thirty-five thousand, five hundred sixty-eight and 47-100ths dollars ($35,548 47.)

It will appear that ample provision has been made by the Legislature for the selection of the 500,000 acre tract (the amount for both appraisal and selection is entered in gross on the books, and the separate items cannot be ascertained.)—Notwithstanding this, much of this land was appraised at five, ten, fifteen and twenty cents per acre, showing either gross dereliction of duty on the part of the appraisers or those who were appointed to make selections. The average price per acre realized to the school fund from the sales of the 500,000 acre tract, which was supposed to be choice and selected lands, is one dollar and forty-two cents, (1,42), while the average price per acre of the 16th sections, which were chance locations, has been two dollars and seventy-four cents, ($2,74.) It will be seen by the tables hereto annexed, marked E;

That the whole amount of the 500,000 acre tract sold is 476,795 55-10ths acres.

The amount unsold 2110 34-100ths acres.

Amount of 16th sections sold 503,717 47-100ths acres.

The Committee did not deem it necessary to prosecute inquiry to any great extent in relation to the manner in which the public sales of school lands have been conducted, as this branch of the subject was pretty fully investigated by a committee of the Senate, appointed for that purpose at the session of 1855. The committee would refer to the testimony taken before that committee, and also to the testimony of Daniel Seaver, *to be found in his affidavit*, herewith submitted, in reference to the Waupaca sales. There is no doubt but that the practice prevailed generally at these sales of making false bids and then forfeiting the same. The Commissioners then re-offered the lots, upon which the bids were made so early the next morning after the sale that no opportunity was offered to bona fide purchasers to bid upon them. Some of the lots were not re-offered at all, and they were then left subject to the private entry of the speculators.

It will be seen at once that these practices were not only a violation of law, but they tended directly to the depletion of the school fund; for many of those who desired to purchase these lands at the sale were farmers, who were willing to pay more than the appraised value, as they wished to obtain them for purposes of cultivation. There must have been collusion between the Commissioners and persons making these bids, or the Commissioners would have re-offered all the lands in compliance with the law at some suitable hour, and on such notice as the law contemplated. In the course of the examination of witnesses, it also appeared that it was not unusual to allow time for the payment of the amount required by law to be pre-paid on the purchase of these lands at the public sale, and in many instances the amount was not paid until some time after the return of the Commissioners to Madison, and in some instances, as will be seen, no payment whatever was required.

The Committee did not deem it necessary to make any very minute investigation in relation to the very large sale of school lands to James Ludington, in May, 1854, as this matter also was the subject of investigation by the Legislature in 1855.

It is, however, but proper to state that Mr. Ludington on the 18th of April, 1854, made application for all the unsold School Lands in this State. That it appears from a memorandum signed by the Secretary of State, dated July 3d, 1854, written on the same paper containing the application, that the application of Ludington having been made under the impression that the unsold School Lands of the State did not amount to more than about 70,000 acres, by the consent of the Commissioners the same was withdrawn, and a new application was made for a portion of the lands. On the 1st day of May another application was filed in the office by him for all the lands embraced in a list accompanying the application, which list contains descriptions of nearly 1500 lots, being about 57,000 acres. There was no provision of law at that time limiting the amount of land which might be entered by any one person. But the evidence of James Halpin and Dr. Hunt discloses a suggestive and somewhat remarkable fact in relation to this sale to Ludington. It seems that Seaver, who had charge of the Treasury Department at that time, went to Milwaukee and had an interview with Ludington, the result of which was the application for all the unsold School Lands, and that Seaver received from Ludington a transfer of two thousand dollars of stock in the Bank of the West, which he (Seaver) said he had made clear out of the transaction. The impropriety of a State officer, or any one in the employ of the State, receiving money under such circumstances, is evident to every one. It is the manifestation of a mercenary disposition which totally unfits the recipient from holding any office of trust, and will inevitably lead to corruption, dishonesty and fraud in the business transactions of the State. In connection with this matter, it may be as well to allude to the testimony of Messrs. Ludington and Chapman, in reference to the amount required by law to be prepaid upon the certificates issued to Ludington on the purchase.

These gentlemen both swear that they paid the whole amount called for by the certificates, and which was due on them, which amount was $13,846,05, and that this amount was paid to the treasurer or his deputy, according to a list and account attached to the affidavit of Mr. Chapman marked "C." The whole amount with which the treasurer has charged himself on account of monies received from Ludington or Chapman on the purchase is $10,189,70, making a difference of $3,655 35 against the school fund. Of this latter amount there is no account whatever upon the treasurer's books; and the books of the secretary of state agree with those of the treasurer within one dollar and ninety cents.—On the certificates issued to Ludington for that part of his purchase of lands lying in the county of Iowa, there was due on delivery of the certificates on account of principal and interest the sum of $2,266,49, which he swears that he paid; but the only credit to the school fund for lands sold him in Iowa county, on the books of the treasurer is $14,24. Unless Messrs. Ludington and Chapman are mistaken, and they swear positively to the fact, the whole amount due on certificates delivered to them was paid to Seaver. And this amount of three thousand six hundred and fifty-five dollars and thirty-five cents must be added to the cash deficit of the treasury. See statement marked "H." In the same connection we may allude to the testimony of N. W. Dean.

On the 15th day of May 1854 he purchased 1288 69-100 acres of University Lands in Green, Lafayette and Iowa Counties, upon which purchases certificates of sale were issued and delivered to him. He swears that at the time of the purchase he paid the assistant Treasurer the sum of five hundred and sixteen and 96-100 dollars as part of the purchase money, and one hundred and ninety and 98-100 dollars interest on the balance of the purchase money to the 1st day of January 1855, making in all the sum of seven hundred and eight and 10-100 dollars paid into the treasury at the time of said purchase. Not a dollar of the amount is credited to the University Fund on the treasurer's Books, and this amount also must be added to his cash deficit. By reference to Table marked "G." will be seen that fifty-six Patents have been issued for the lands therein described, which are marked "paid in full" upon the sale book, but upon which there is yet due by the treasurer's books the sum of fifty-nine hundred and 16-100 dollars. This amount is a total loss to the School and University Fund unless the Commissioners are liable to the State for the amount. A voucher was found in the Treasurer's Office for the sum of four-hundred dollars, being a receipt given by Lyman Cowdry, special agent for the collection of fines in Walworth County, from a memorandum upon which, it appears that Mr. Cowdry collected of the clerk of the circuit court of Walworth Co., $800 for fines and $100 for tax on suits—that he retained $120, and paid $280 into the treasury. The amount of $100 tax on suits, he had no legal right to receive, he being appointed only to collect fines, and there is now due from him to the State the sum of thirty dollars, and the balance $70, should be transferred from the School Fund into which it was improperly paid, to the general fund where it belongs.

It will be seen by the accompanying list of mortgages taken for loans marked F. that many of them are defective. The Law requires that the Attorney General as the legal counsel of the State, shall examine all mortgages, titles, papers &c., in relation to loans, and if correct certify the same on the mortgage, before the loan shall be granted. Some of the loans were made without any such certificate, and the result is the security which the State holds for the loans is doubtful or worthless. In some instances the Attorney General certifies it correct when the mortgage is so defective that it cannot be foreclosed.

In some instances there is no amount named in the note, sometimes none in the mortgage—some are not sealed—and some are not dated.—In one case the note is for five dollars, while the loan was five hundred dollars. There is no possible excuse for negligence like this. The people rely upon those whom they have elected for that purpose to exercise a strict and watchful care over a fund which they have ever regarded as sacredly devoted to the education of the youth of the State. It will also be seen that many of the mortgages were allowed to remain a long time in the Secretary's Office before being recorded, thus giving the mortgagor an opportunity to alienate the land upon which the security for the loan is based. In one instance it appears that a portion of the land mortgaged was so alienated, and the deed was put upon record before the mortgage was recorded. This loan was made to John Nelson of Outagamie County. The date of the mortgage is September 24th, 1855. It was not recorded until March 4th 1856.

In some instances no mortgage can be found, to secure the loan made; in others the same land is found to be twice mortgaged to secure two different loans. In many instances loans have been made to the same person for more than five hundred dollars, which is contrary to law. On the 30th of April, 1856, on a sale of several parcels of land, mortgaged to the state as security for loans, Henry Quarles purchased said lands for which he received a patent, and then executed a note for eight hundred and twenty-five dollars, being the purchase money, and secured the same by a mortgage on only a portion of the land included in the patent—thus obtaining from the state a clear title to some of the land, and paying for it with land that belonged to the state. The mortgage was given on two separate parcels of land, one lying in Marquette county, and one in Waukesha county.—The mortgage has never been recorded except in the former county. For other irregularities, mistakes and defects in the securities given for loans, we would refer to the schedule herewith submitted marked "F."

In order that the investigation should be thorough in relation to the securities given for loans from the School and University Funds, the committee deemed it advisable to request the Registers of Deeds of the several counties in the State to make out and transmit for the use of the Committee, an abstract of all State mortgages received in their respective counties. In compliance with this request, returns were received from nearly all the counties. But three refused to comply—the Registers of Iowa, Washington and Dane counties. Mr. Francis Ritchie, Deputy Register of the latter county, refused to comply with the request of the Committee without an advance payment of seventy dollars. The Committee were obliged to send a clerk to the office to make the abstract required. These abstracts will be of great convenience hereafter, and will be deposited in the office of the Secretary of State with a correct list of all mortgages belonging to the State—and also with the books containing the transcripts of all the sales of School and University Lands in each county in the State. The committee have already alluded to the fact of the clerks and others connected with the School Land Office, using the names of other persons without their knowledge in the entry of lands. It will also be seen by the affidavits herewith submitted, that among the names so used are those of E. H. Gleason, Daniel Howell, Wm. Chappell, John McKennon, and Robert Chandler. The three former swear that they had no interest in the lands thus entered, and no knowledge that their names were being used for such a purpose. The amount of land entered in the name of—

Daniel Howell is	14,163 acres.
E. H. Gleason is	6,420 "
Wm. Chappell is	1,820 "
J. McKinnon is	3,654 "
John A. Byrne is	1,285 "
Robt Chandler is	1,160 "
Making a total of	28,505 "

It will be seen by the affidavits of Robert Chandler and Dr. Hunt that the statement of Mr. Seaver in regard to Chandler's having assigned certificates to Hunt in presence of Seaver is contradicted. All the lands entered in the name of McKinnon were entered by and for the benefit of J. A. Byrne. By reference to the tables marked "L," and "M," it will be seen that the whole amount paid for "Printing" for the School and University Land office has been $8,221 77 and that there has been paid for books and stationary $5,387,8. For appraising and selecting lands $35,568, 47. There was no necessity for this large expenditure. The whole expense of some judicious system would not exceed one half the amount. The present system is not only expensive but inconvenient. It is open to fraud and peculation. The whole system should be changed if the sale of School and University lands is to be continued.

Your committee are clearly of the opinion that great loss has been sustained by the School Fund through the haste with which the school lands have been brought into market. The lands generally having been situated in the new and uninhabited parts of the State, and surrounded by lands of the government, have seldom been appraised higher than ten shillings per acre, the government price. They have been brought into market under low appraisements, and readily sold on account of the credit given, whilst the lands of the government in the vicinity remained undisposed of.

Your committee would advise that the whole policy of the State should be changed in respect to the sale of these lands. The wants of the educational interests of our State do not demand any material increase of the fund at the present time, as this fund is now much larger compared to the number of children to be educated than it will be twenty years hence under the most prudent management. Your committee can see no great evil in the result of keeping the 16th sections, and all other school and university lands, wherever located, now remaining unsold, out of market until such time as the other lands in their vicinity shall be settled, and until the further withholding them from sale would be a serious obstruction to the settlement of the country. By adopting this policy, the school lands could be sold for a greatly enchanced price.

The land would be more likely to fall into the hands of men who desire them for actual occupation, and the school fund would receive the benefit of the advance in price which would inevitably follow the purchase and occupation of the Government land, instead of the land speculators, who under the present system have seized upon them.

The argument always urged against the policy of withholding the lands from market, that it retards the growth and settlement of the country, is fully answered by the facts to be derived from our experience under the present system.

These facts show that the School Lands have not fallen into the hands of those who want them for occupation, but are held by speculators in large quantities, ranging from five to seventy-five thousand acres, thus more effectually retarding their settlement than if held by the State.

This argument has but little weight when applied to the 16th section, for they are so distributed that their being withheld from immediate sale cannot materially affect the general settlement of the unoccupied portion of the state, and no serious complaint has ever been made upon this subject by the older counties, where these sections were withheld for several years after these counties became settled. To carry out this policy your committee herewith report a bill repealing all laws authorizing the appraisement and sale of all school and university lands, and recommend the passage of the same.

The faults of the present system of keeping and managing "The School and University Fund" are too many and too great to be remedied in detail. And it should be materially changed. Under this system it is necessary that those owing interest to the "Income Fund" in the several counties in the state should remit the various amounts to the state treasurer at Madison. And the same money, after it is apportioned, must then be sent back to the several counties from which it was received. Many losses and much inconvenience result from this system. And it would be far better in every respect and equally safe that the money should be paid to the treasurers of the respective counties in which the debtors of the fund reside. The Committee therefore report back the bill entitled "An Act to amend chapter 24 of the Revised Statutes and establish a system for the safe keeping and management of the School and University Funds," and recommend its passage. The Committee, however, are not unanimous in relation to this recommendation.

Your committee finds as per schedule marked "I." that the whole amount of loan:

From School Fund is	$324,637 37
Amount of Loans paid	23,436 27
Showing a balance of	$301,201 10
Amount of Loans from University Fund (See schedule marked "G.")	$13,295 90
Amount of loans paid	450 00
Showing a balance of	$12,845 90
Amount of School Fund—(See schedule marked "F.")	$333,284 14

Your committee find also as per statements of amount herewith submitted marked "K." that there is now due from the State Treasurer to the State ... $38,076 48

Due on land certificates, Loans, omissions and alterations	21,711 07
Due on Patents issued	5,900 61
Payments without authority of law	3,628 70
Due on penalties not entered	$22,848 93
	$97,116 84
Payments since Jan. 1, 1856	9,867 72
Leaving a balance of against the State.	$87,249 12

The total amount of the School Fund on the 1st day of January 1856 was, two millions forty six thousand three hundred seventy one 5-100 dollars ($2,046, 371,05-100) as per report of the School Commissioners. The number of acres exclusive of the 16th Section sold up to that time was 4 hundred seventy six thousand seven hundred ninety five 55-100 being about 745 Sections. The whole number of the 16th Section in the State as estimated by the Superintendent of Public Instruction in his report for the year 1851, was 1523. Deducting from this the number sold and we have 736 Sections unsold, which at the average prices realized from those heretofore sold will bring seven hundred thirty eight thousand dollars ($738,000. Adding this to the amount of the fund as it stood in January last we have a total of two million seven hundred eighty four thousand dollars ($2,784,000.) This falls short of the estimate made in the report of the Superintendent, before alluded to, which was at that time considered in a low one, of two millions five hundred and eighteen thousand dollars ($2,518,000).

There is no question but that under judicious, careful and prudent management our School Fund would have been double what it is. The people of the State have expected and had a right to expect, that the revenue belonging to this fund would be carefully husbanded. They have been led to believe from the messages of the Executive, that there was "evidence of energy and fidelity" in the management of the educational funds of the State, "that those having charge of this great and sacred interest have been actuated and governed by a sense of justice" and by a high regard for the duty attendant upon their positions, and that they have sometimes even gone beyond the strict line of duty, actuated by their zeal for the welfare of the rising generation, and have ventured to assume such responsibilities in the premises, as the importance of their trust seemed to demand. Although from all the information which the people have gathered from this source, they may have suspected that even the Legislature has sometimes manifested a "reckless disregard for these funds of which we may and do justly feel proud," and which they as the watchful guardians of the rising generation should have carefully protected, yet "notwithstanding this neglect it would have been gratifying to be able to believe from all the official reports connected with these funds, no evidence exists that a dollar has ever been lost or squandered whatever may have been the suspicion or charge to the contrary," and "that the fund granted for the purpose of ensuring the lasting establishment of our common school system is steadily working the beneficial results intended."

But your committee are compelled to say that the result of this investigation shows that there is no foundation for such hope or belief. Tens of thousands of dollars of this fund have been embezzled and hundreds of thousands "lost and squandered," whatever may have been the hope of every citizen of this state who loves the sacred cause of education, to the contrary. Criminal negligence, wanton recklessness and utter disregard for the most responsible duties which could be imposed upon man, alone have distinguished the management of the fund. It is a melancholy reflection that this great wrong, thus inflicted upon the best and highest interests of the state, does not end with the mere pecuniary loss to the school fund, but that it goes farther and inflicts a deadly blow upon the confidence of the people in those in whom they have confided, and to whom they have entrusted their dearest interests. It goes even beyond this, and becomes a double crime, for its direct tendency is to undermine and destroy the confidence of the people in a representative government. Once destroy that confidence, and all free government is at an end.

The corruption which such a state of things engenders, if suffered to continue, will be felt in our halls of Legislation, and will soon reach the people, until a general depravity of public sentiment will be the result, and the great and true end of government, the moral and intellectual progress of man—will be lost sight of in the conflict of personal interests which would ensue.

[From the N. Y. Tribune, 15th.]

There was a further improvement of 5 to 10c on Flour this morning, with a good demand, but after the Arabia's advices were received the market closed dull. The active demand for Wheat continues, and the sales of the day are 200,000 bus, and for the past two days about 550,000 bus. We think the business has never been exceeded in this market. Prices are again 2 to 3c. better, but were heavy after the receipt of the advices per Arabia. Included in the sales were 110,000 bus Illinois, Indiana and Michigan on private terms, by Messrs. N. H. Wolfe & Co., the largest sale ever made by one house. Corn is also better and in active demand—sales 200,000 bus, mostly for export. Thus in two days 850,000 bus Wheat and Corn have been sold in this market.

Chills and Fever.
TO THOSE who are afflicted with this disagreeable and baffling malady, we would state, that after years of bitter and unavailing research, a medicine has been discovered which will, in every case, effect a certain and permanent cure of this dreaded disease. It is not a quack nostrum prepared to extract money from sufferers, for the proprietor offers to refund the money if a cure is not effected after following the directions. He is assured by the evidence of hundreds of cures which they have effected, that this medicine is in reality the remedy so long desired in the Western country. This valuable medicine is prepared in the form of a pill, from the bark of a shrub, which has proved to be a perfect antidote to Malaria. They are simple and plain in their nature, powerful and active in their operation, and perfectly harmless to the system, having no other than a specific effect upon the disease which is truly wonderful. Some persons have stated that these pills must contain arsenic, or some powerful mineral, owing to their quick effect in curing this disease. The proprietor would state that he will pay one thousand dollars to any chemist who will find one particle of mineral in this composition.
Certificates of cure from persons of the highest respectability can be obtained by calling at the Drug Store of HENRY FESS, Jr., No. 195 East Water street.
N. B. One great recommendation for these pills are, that they only require about five to effect a cure. DR. CALVIN M. FITCH,
AUTHOR of "Invalid's Guide and Consumptive's Manual," etc., etc., having returned from Europe, is at present on a Professional visit to Chicago, and may be consulted daily, Sabbaths excepted, at his rooms at the SHERMAN HOUSE.
DR. FITCH's success is due not alone to his ample experience, but to the fact that, regarding CONSUMPTION as both a local and general disease, he treats it as such;—by MEDICINAL and STHENOTROPHIC INHALATIONS, reaching directly the diseased surfaces, while by appropriate internal remedies and general measures, he removes the constitutional taint which gives rise to the local disease.
Basing upon the same principle his treatment of ASTHMA and CHRONIC BRONCHITIS, Dr. Fitch has had the pleasure of relieving cases of many years' standing, and which had resisted all ordinary measures.
In the treatment of other Chronic Affections, and especially FEMALE DISEASES, the employment of Mechanical Remedies, as well as Medicine, gives him a degree of success only to be secured by this combination of remedial means.
Hours of Consultation from 9 A. M. to 5 P. M.

THE DAILY SENTINEL.

Thursday Morning, Sept. 18.

CITY MATTERS.

POLICE COURT, SEPTEMBER 17.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

John Dugan, drunk, two days to jail in default of $1 fine.

Robert Cord, drunk, fined $1. Anson Brown, shooting in city limits, fined $2. Patrick White, charged with assault and battery upon Mary Smith, had the case continued to Sept. 24th, at 10 A. M.

A HARD CASE—A TRUE.—A widow woman with a child six weeks old, applied for the second time for redress, and the means of supporting her infant. Her story is that she was a widow, and while in Liverpool, England, a man named Ned Welsh, now a resident of Greenfield in this county, where it is said he has a wife and family, and is the owner of a farm, fell in with her and agreed to marry her on her arrival in America; he paid her passage and that of her son, a small boy, and the three started for America. During the passage, they lived as man and wife, and the child at the woman's breast is their child.

On their arrival here the man refused to marry her, and the woman claims to be destitute, without any means to support the child. This is the woman's story, twice told, and alike on each relation. She further says that the man, on an investigation before the Greenfield magistrate, denied the parentage. The woman was recommended to the Poor House, where the County authorities would probably investigate the matter and compel the father to support the child.

In the case of S. B. Davis, vs. the city of Milwaukee the Jury returned a verdict for the plaintiff of $4,50. A more full notice of this case is postponed till to-morrow.

Our new Judge is working early and late, commencing the sessions of the Court at 8 A. M.

We understand the Court will be adjourned at 12 M., to enable the officers to attend the funeral of Mrs Fearritt, the wife of the assistant Jailor.

CIRCUIT COURT. SEPT. 16.

JUDGE RANDALL PRESIDING.

The Grand Jury, who are working at the rate of seven instead of four hours per day, as before, have already made several presentments. Upon one indictment for compound larceny, Jacob Smith was arraigned, and plead guilty in the charge of stealing, on the 26th of July last, in and from the dwelling house of Elisha Hutchings, a gold watch, do chain, several breast pins, and rings, belonging to Leopold Hortke: the prisoner plead guilty, and was remanded to jail to await his sentence this morning.

COMMON COUNCIL.—STREET COMMISSIONERS' ORDINANCES, &c.—The ordinance establishing the permanent grade (till the next one) in streets in the 2d and 4th Wards, is published.

The Jurors to assess damages and benefits on the extension of Van Buren Street, 3d Ward, meet at the Common Council Room on Saturday, 20th.

The 6th Ward Aldermen order the "so-called Fond du Lac plank road, graded and gravelled from 7th street to the city limits, in 21 days. Also, that the north half of Vliet street from 3d to 11th streets. Fifth st., from Vliet to Galena, and Cherry st., from 4th to 7th, be graded and gravelled in 10 days.

The ordinance for taking Block 45, in the 3d Ward, for a Market Square, is published, and bonds authorized to the amount of $50,000. The people of the Ward to vote for or against the project on the 4th of October.

THE GRAND JURY.—The two Poor Houses, of this city and county, have been, for a long time, the subjects of great reproach to the authorities and those having them in charge. We have been informed that, during last winter, nearly every insane person confined in them died. It is even said that, of the eleven or twelve who died, several died from the effects of cold—almost frozen to death.

Both the houses are managed improperly; in too many instances paupers have actually died for the want of proper care. Insufficient help, lack of proper attention to the wants of the poor, and many other causes, we are led to believe, have hurried many to a premature pauper's grave.

On former occasions, the Grand Jury has visited these institutions, and any suggestions or presentments made by them from actual inquiry about these Poor Houses, will, doubtless, receive, at the hands of the proper authorities, that attention they would deserve. There are several men upon the Grand Jury whose hearts are not callous to the cry of the poor; to ameliorate the condition of the really poor and needy, would be a God-like mission of a Grand Jury. We might suggest the propriety of visiting these Poor Houses, and making such enquiry and suggestions, relating to them, as they may think their duty requires.

FRIEND & BROTHER'S TAILORING ESTABLISHMENT.—Messrs. Friend & Brothers, now in the U. S. Block, advertise in our columns their arrangements for Fall and Winter trade. Their firm is well known to the people of this State, as an upright one in business transactions; selling their goods at a low profit, their extensive business enabling them to sell below the usual rates. An experienced cutter is always on hand, to fit up to the existing fashions, and a number of the best workmen in the city are kept constantly employed upon Custom work.

Their new store, at their old stand, occupied by them for several years, next to the State Bank and Seaman & Wing's Furniture Store, will soon be completed. When finished, it will be solid, fire proof, and handsome, being built and fitted up expressly for their own business. A large stock of ready made clothing of their own make, is offered to country and city dealers.

THE "FREE STATE ADVOCATE."—An Agent is in our city canvassing for a new Fremont Campaign paper, with the above name, published and edited by JAS. B. SWAIN, at 139 Nassau St., New York. Mr. Swain is the able Legislative correspondent of the *N. Y. Times*, and abundantly capable of making a useful campaign paper. The Albany *Eve. Journal* says of the *Advocate*:

> "It is spirited, racy and energetic, and will deal effective blows for Freedom in the approaching contest."

INFORMATION WANTED.—Mr. WELLS, our member of Congress, requests us to say that if KATHARINE ALBRECHT, widow of VALENTINE ALBRECHT, a teamster in the United States service in the Mexican war, will call at the office of WELLS & BRIGHAM, in this city, she can obtain a warrant for 160 acres of land, which he brought with him from Washington.

A CLOCK NEEDED IN THE POLICE COURT.—The only article of furniture now lacking, though much needed, in the Police Court, is a clock. Will not the Comptroller furnish the Court with one? It is really needed, and would be of great use when furnished. Disputes arising as to hours of adjournments, attending of witnesses, &c., could all be determined without difficulty, but to the satisfaction of all. Let us have the clock.

FIRE.—Yesterday morning, between 2 and 3 o'clock, a fire was discovered in the Saleratus Factory of of R. P. CADY Co., in the 4th Ward, near the M. & M. R. R. track. The building was destroyed, causing a loss of about $3,000. We understand there was an insurance of $1,500.

CRICKET MATCH.—Owing to an unfortunate misunderstanding, our Milwaukee Club was unable to master its usual strength for the match with the Chicago boys on Tuesday, at the Layton House, and was beaten "easy." We wish them better luck in the return match at Chicago.

ACCIDENT AT A BALL.—A German lady named Knobelsdorf, fell, while dancing at the Republican House, on Tuesday night, and broke her right leg, close to the ancle.

FREMONT ENVELOPES AND LETTER HEADS.—These articles of stationery are becoming very popular. Messrs. J. A. HALL & Co., who have them for sale, say they go off like "hot cakes."

RASCALLY.—Some scoundrel has been meddling with the machine of Engine Co. No. 1, so as to impair its efficiency until repairs are made. The Foreman offers $50 reward for the offender.

City Land Office.

GREAT SALE of valuable Lots in Wright's Addition, adjoining Sherman's Addition, in 6th Ward; it is well known, (and those who do not know it ought to know it) that there is no part of the 6th Ward filling up so rapidly and permanently as Sherman's Addition all along Third street, up to where Wright's Addition commences are stores of various kinds, and it is a beautiful location, not to be surpassed. In fact, there is no property, in my opinion, which is now offered for sale, which holds out such inducements for those who want to secure themselves a home, and those who have money to money to invest, as the Lots in Wright's Addition. Remember that Wright's Addition commences on the next street above Beaubean street in Shermans Addition; another fact, the Lots in Wright's Addition are full, old fashioned sized lots, which are now being offered for sale. I will, in a few days, have plats of said Addition, which can be obtained at my store. The sale of said property will take place on Tuesday, October 6th at at 10 o'clock, at my store.

The terms are as follows:

¼ cash, balance in 1 and 2 years at 7 per cent interest, or, ⅓ cash, balance in 1, 2 and 3 years, at 8 per cent int., or, 1-5 cash, balance in 1, 2, 3 and 4 years, at 10 per cent interest.

Persons have their choice of terms.

Title is the best in the world.

City Auction Room.

KILBOURN CITY is to be the great Emporium of the western part of Wisconsin. This great city was laid out some twelve months since, being located at the point, on the Wisconsin River, where the LaCrosse & Milwaukee Railroad enters this great and beautiful River. Wisconsin, is capable of furnishing the greatest water power of any river in the United States. There is a dam about being constructed, which will be completed Summer, 1857

The manufacturing of Lumber, of which over one hundred millions of feet are annually manufactured on the Wisconsin River, will furnish immediate use for the greatest portion of this great water power.

The Wisconsin River abounds with pine forests, which is more extensive than any other river in the West.

The site of Kilbourn City is magnificent, being a plain *rising from a bluff elevation* of 80 feet at the river bank, to an elevation of some 200 to 250 feet, where it meets the table land two miles east of the river. The whole is oak openings, and the land lays beautifully.

The best, purest and softest water can be had by digging or boring. Kilbourn City was laid out, and buildings commenced in Sept. last, since which time some 15 or 20 buildings have been enclosed at a cost of from $1,600 to $3,000 each, and great numbers of others are in progress of construction.

In fact, it would require two columns of one of our daily papers to give an account of the advantages of Kilbourn City. One word is sufficient, and that is this. There has been no city laid out in many years which has offered so many inducements and advantages, and where capitalists can invest their money so certainly as in Kilbourn City.

Kilbourn City is in Columbia County, State of Wisconsin. You take the cars from Milwaukee to Beaver Dam, where you will find conveyances to Kilbourn City. Maps of said city are ready, and can be obtained by calling at my office.

The terms upon which the property is to be sold, are such as to give all a chance of bettering their condition, and affording the opportunity to all to become interested in a city which will and must be one of great importance.

It is impossible to give a full and fair description of Kilbourn City, but one fact is worth knowing, all who go there have a great chance of becoming independent on a very little capital. The Terms of Sale are ¼ cash, balance 1, 2, 3 years, with 7 per cent interest, payable annually.

For the purpose of encouraging any who intend to build a house in said city, the value of the house to be not less than six hundred dollars, unto such persons or person so building, the second payment will be given as a bonus for such improvement, therefore such persons or person would have no payment to make for two years after the first payment.

The sale will take place in October 14, 15, 16 and 17th, commencing at 10 o'clock in the morning of each day.—Five per cent cash will be required of the bidder which will be deducted from the first payment when the deed is given. CALEB WALL,

W. LAIDLAW'S LAND AGENCY!

Office 230 East Water Street, 2 Doors South of Walker House.

AMONG the extensive amount of Real Estate I have for sale, I would respectfully call the attention of those in search of a largely paying investment to an "out lot," of 20 acres. Said lot is situated one mile and a half West of the city, and besides being handsomely timbered, commands the most beautiful view of the city, lake and harbor. The soil cannot be surpassed, and on the whole, this tract of land is unequalled in the county of Milwaukee, for beauty and availability. Land, the same distance North of the city, is selling at from $300 to $400 per acre, and there should be no reason why the land I offer should not be more valuable, on account of the superiority of location and view. I will sell it, however, at about half the above figures, or exchange for city property.

There was a great Republican Mass Meeting in this city to-day. It was most imposing in numbers and appearence. Business was almost entirely suspended. The procession was very long—the streets were decorated with flags, &c., &c., presenting a holiday appearance. The windows of the streets through which the procession moved were crowded with ladies. Several distinguished strangers are here. Among them are Hon. Cassius M. Clay, Hon. N. P. Banks, and Gov. S. Roberts and Bingham. Owing to indisposition, Mr. Burlingame was not present at the meeting. Mr. Sumner was also expected to be present, but did not come.

THREE P. M. REPORT.

Gov. Reeder "on the stump" for Fremont.

NEW YORK, Sept. 17.

Governor Reeder, at Norristown, last evening, delivered an effective speech in favor of Fremont. He proceeds to Western New York, to speak in behalf of Fremont. He will return here in two weeks and take the stump in this section of that State.

PHILADELPHIA, 17.

A meeting of *Americans* was held last evening, at National Hall. It was called by Hon. Lewis C. Levin to repudiate the Union ticket of Americans and Republicans for State officers.—Mr. Levin was hooted down, and finally thrust out of the Hall. Subsequently, the Union ticket was endorsed by resolution, and Levin denounced. A procession was then formed and marched to the Fillmore meeting at Spring Garden, where similar resolutions were adopted.

NEW YORK, Sept. 17.

The steamer *Persia* sailed at noon for Liverpool, with twenty-six passengers and $1 500,000 in specie.

The *Courier & Enquirer* of to-day publishes an affidavit directly controverting B. F. Cook's statement, concerning his recent conversation with Col. Fremont. The affidavit is signed by Josiah Mott, David C. Comstock and R. H. Potter, and is attested in the usual form.

BALTIMORE, Sept. 17.

The Whig National Convention met at noon. The Hall is crowded, delegates being present from twenty-six states. Ex-Governor Hunt, of New York, is temporary chairman.

WORCESTER, Mass, Sept. 16th.

This afternoon, both the Republican and American Convention united on an electoral ticket, Julius Rockwell and Thos. Colt being electors at large. Previously, the American Fremonters had nominated Dayton for Vice President, in place of Johnston, and pledged themselves to labor for the election of the former to the Senate.

The Fremont Americans also pledged themselves to hold Congressional and County Conventions, on the same day with the Republicans, with a view to union.

The question came up in the Republican Convention, as to adopting the American State ticket, *including Gardner for Governor.* There was considerable excitement and confusion. Finally, a motion was adopted that the Republicans nominate no State ticket. This is satisfactory to the Fremont Americans and ensures the united votes of the parties under that ticket.

WASHINGTON, Sept. 13.

From Washington—Senator Clayton, of Delaware publishes a letter in the Intelligencer declaring that it is his intention to express no perference and take no part in the Presidential contest.

BOSTON, Sept. 13th

The Hon. Samuel H. Walley, the Whig candidate for Governor last year has written a letter reviewing political affairs, and declaring for Fremont and Dayton.

TRENTON, N. J., Sept. 14.

Great Fremont Demonstration.—A Fremont meeting was held on Saturday afternoon in Buck-Co., Pennsylvania, near this place. From eight to ten thousand people were present, and one thousand wagons were on the ground. There was a great display of banners, &c., and the enthusiasm was unbounded.

The Fremonters of this place are holding meetings nightly, and the democrats are about commencing an animated campaign.

PINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855.

THESE CELEBRATED SIDING MACHINES are the only Machines that do or can cut both ways, and thus avoid loss of time in gigging back. They cut with ease, when properly attended, Fifteen Hundred Feet per Hour. They are not more complicated, nor more likely to get out of repair, than any other Siding Machine. A Machine on this plan for sawing wide lumber in connection with an upright saw for slabbing the logs, will excel anything in existence. We have sold a large number of the Siding Machines, all of which have given the most perfect satisfaction. They are

MANUFACTURED ON THE WATER POWER, IN THE CITY OF MILWAUKEE,

Under the supervision of the inventor, where Machines may be obtained, on application to

PINNEY YOUNGS & CO.

We subjoin the following *Testimonials of the estimation they are held in by purchasers*:

MANISTEE, MICHIGAN, October 1st, 1855.

PINNEY YOUNGS & CO.:
Gentlemen:—In answer to your inquiry as to how I am pleased with the Siding Machine of Pinney Youngs' Patent you sold me, I can truly say it is better than recommended. It far exceeds my expectations. To give you an idea of what can be done with it, I will give you an account of a few hours sawing: It cut in four hours and twenty minutes, Eight Thousand Nine Hundred and Sixty Feet of Lumber, superficial measure, and that in the most perfect manner.
Yours truly,
(Signed) SAMUEL POTTER.

MILWAUKEE, March 28th, 1856.

We have one of "Pinney Youngs' Patent Sawing Machines" in operation, and would say that it is all that it is represented [illegible] and gives perfect satisfaction.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. R. DE GRETY, from Paris for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr De Grety furnishing books for the first six hours. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A M, and from 3 to 5 P M. And in the evening from half past 6 to 8, for conversation.

Mr. DE GRETY will also give lessons in French, Spanish and Italian, at his office to gentlemen only, from 7 to 10 o'clock in the evening, also lessons in Fencing, the use of the Sword and all military exercises. Persons of delicate constitution and feeble temperament, as all others confined to their offices and engaged in sedentary pursuits, will derive from these exercises improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr De Grety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust can judge for themselves after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr De Grety will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

STEAM FOUNDRY!

—OF—

TURTON & SERCOMB,

296, 298, 300, 302 and 304 West Water St.

IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Slotting Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine Engine and Blacksmithing business. They never were in a better position for doing business, and

In regard to the character of the work got up by this

The Oldest Establishment in the State

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "Excelsior."
